WACHUSETT MOUNTAIN RACE COURSE

Road, long, intermediate

[Click here for a Strava map](#)

Distance: ca. 6.9 miles

Elevation: ca. 1,200 ft

Road shoes recommended

Join us for everyone's favorite mountain course! You will follow the auto road to the summit with many scenic overlooks along the way. Then you will descend via a mix of roads and non-technical trails. Despite the elevation, this course is friendly to all abilities, as long as you are okay with the occasional power walk.

Modifications: Turning around at any time before the summit will shorten this run.
