Hike, short, beginner-friendly

Distance: ca. 1.8 miles

Elevation: ca. 270 ft

Trail shoes optional

This is a beginner-friendly hike starting at the Main Ski Lot. We will explore Bolton Pond and Balance Rock before traversing across the mountain to make our way to the other end of the ski area. This hike shares many paths with other groups on this evening, which should make for a connecting and social experience.

Modifications: Taking the shortcut at Balance Rock back to the parking lot will significantly shorten this hike - a great option perhaps for those with kids, or those who are unsure of their current ability level.
